

Guided Fly Fishing Expeditions

The Soque River winds down from the Blue Ridge Mountains and is one of the best kept secrets in the angling world today. Lake Burton Club members will love the action at Blackhawk, a stretch of the Soque that runs through private land just south of Lake Burton, near Batesville. With personal management it has become an amazing fishery with trout reaching sizes expected only of fishing mecca's like Alaska, Canada, Chile, and Argentina. Blackhawk is open year round, weather permitting, and boasts scores of large rainbow trout and some native brown trout. Member pricing available.
